Please take a few minutes after finishing a lesson to reflect on the lesson.
Implementation Log Instructions:

When monitoring the effectiveness of an intervention, it is important to know if and how the lessons were taught in class. Some teachers may choose to teach all or most of the lessons while others skip over lessons and/or teach part of rather than the whole lesson. As part of collecting data about student outcomes (e.g., grade point average, retention rates, discipline incidents) and teacher satisfaction, you need to ask teachers to complete an implementation log to indicate how much they have been using the curriculum and their impression of lesson quality and impact. This will help you interpret the program impact. Comparing teacher implementation to student outcomes will help you answer questions such as:

- Is there a difference in student outcome between “high implementation” classes (more than 40 lessons) and “low implementation” classes (fewer than 20 lessons)?
- Did some teachers teach some lessons or modules that other teachers did not? If so, how did that affect student outcomes?
- Did some teachers add other resources or activities to the lessons beyond the School-Connect curriculum? If so, how did that affect impact?

There are two versions of the Implementation Log:

1) An Abbreviated Log (one module per page) on pages 3 – 5 or

2) An Extended Log (two lessons per page, with additional questions) on pages 6 - 35

You can decide which would be better for your staff and data collection needs. We recommend asking teachers add to their log every time they teach a School-Connect lesson and to turn the log in once a month or once a quarter.
**School-Connect Implementation Log – Module 1**

**NOTE to Teachers:** To complete this section, please have your School-Connect curriculum binder with you for reference. Please indicate in the space provided below approximately what percent of the lesson you taught (scale of 0 – 100%) and what grade you would give the lesson (scale of A+ to F) for content quality and student engagement.

% of Use Scale: 0 ___ 10% ___ 20% ___ 30% ___ 40% ___ 50% ___ 60% ___ 70% ___ 80% ___ 90% ___ 100%

Grading Scale: A+ ___ A ___ A- ___ B+ ___ B ___ B- ___ C+ ___ C ___ C- ___ D ___ D+ ___ D- ___ F

EXCELLENT: Excellent work. The lesson was taught at a high level of depth and engagement. The content was well-presented and the lesson was well-received by the students.

GOOD: Good work. The lesson was taught at a moderately high level of depth and engagement. The content was well-presented and the lesson was well-received by the students.

 Mediocre: Mediocre work. The lesson was taught at a moderate level of depth and engagement. The content was presented, but the lesson did not engage the students as well as it could have.

 Poor: Poor work. The lesson was taught at a low level of depth and engagement. The content was presented, but the lesson did not engage the students as well as it could have.

 Failing: Failing work. The lesson was not taught effectively. There was no engagement or understanding of the content.
